

New York City Employees' Retirement System Job Vacancy Notice **CITYWIDE**

Civil Service Title: Certified IT Developer (Applications), Level 2

Salary: \$82,884 - \$95,317 (Annual)

Title Code: 13643

Division: Information Technology

Unit: Process Management

Job Description:

The Application Release Coordinator will facilitate across different business areas to coordinate software change, configuration, running of automated tests scripts and release function. Interact with senior customers (Directors, Managers and Supervisors) within the agency. Coordinate releases to ensure that the integrity of the production environment and that the correct components are released. Monitor and report on the efficiency and effectiveness of the release management process across the organization using metrics, and make recommendations for improvement. Ensuring that all IT teams follow the release management process for all releases and escalate any repeated non-conformity. Maintain quality checks on releases and record those that directly or indirectly cause support incidents. In addition, the Application Release Coordinator will be responsible for creating automation for the release management process and to continue to evaluate the process for improvement. This may include coding/scripting as part of the release process and back out procedures.
