

New York City Employees' Retirement System Job Vacancy Notice **CITYWIDE**

Civil Service Title: Computer Systems Manager, M-4

Salary: \$125,000 - \$130,000 (Annual)

Title Code: 10050

Division: Information Technology

Unit: Operations-Custom Solutions

Job Description:

NYCERS seeks a Computer Systems Manager join our IT Operations unit in the Information Technology division. The role of the Computer Systems Manager for the new Enterprise IT & Business Support team will be to manage and oversee all activities as they relate to Incident, Problem, and Change management. The manager will establish and govern new IT Operational policies and procedures for the new Enterprise IT and Business Support team, establish the creation of Outage Review Board (ORB) and enhancements to the Change Advisory Board (CAB) committees. In addition, the new manager will institute an official Post Mortem (PM) and RCA (Root Cause Analysis) process. Furthermore, the new manager will ensure all SLAs (Service Level Agreements) and KPI (Key Performance Indicators) metrics are being met on a daily basis. The CSM will manage a team of support personnel who troubleshoot and resolve IT issue in a timely manner. Ensure the Service Desk staff uses the required tools and software to identify, document, track, and resolve reported incidents and problems. Plan, prioritize and schedule change management activities to ensure maximum results with minimum downtime.

Responsibilities include, but are not limited to:

- Oversee and manage the Business Support Center (BSC) as well as Change Management.
- Act as the escalation point for business divisions for all types of IT service incidents.
- Actively review, monitor, assign and manage inbound and existing service tickets.
- Confirm tickets are consistently updated with clear and concise information.
- Develop and train Service Desk staff.

MINIMUM REQUIREMENTS ARE ATTACHED

New York City residency is not required.

NYCERS is an Equal Opportunity Employer

Internal candidates must have been rated a satisfactory or better on their last annual evaluation.

CANDIDATE MUST BE PERMANANT COMPUTER SYSTEMS MANAGER OR REACHABLE ON THE COMPUTER SYSTEMS MANAGER, EXAM NO. 9011 LIST.

NYCERS POSTING NUMBER:
009-20-0057

Responsibilities include, but are not limited to:

- Analyze Service Desk activities and develop tools and process improvements to optimize service and performance.
- Maintain, update, and create technical support and end-user support documentation and knowledge articles.
- Oversee and escalate technical issues for all technical team members as needed.
- Resolve inbound tickets (Level 1 & 2 Service Desk as needed) to ensure SLAs are met.
- Work with ServiceNow (ITSM) tool and make recommendations for enhancements that supports organizational goals and objectives.
- Creation of KPIs and SLAs that meet and exceed the needs of our business units.
- Conduct post mortem activities as they relate to production outages.
- Establish and chair Outage Review Board (ORB) meetings.
- Chair Change Advisory Board (CAB) meetings and ensure change management processes are being followed.
- Creation and implementation of required Root Cause Analysis (RCA) and Post Mortem documentation.
- Communicate with business divisions to keep them updated on incidents and outages.
- Escalate service requests that cannot be scheduled within agreed service levels.
- Create and monitor production dashboard reports showing SLAs/OLAs of Incidents and Problem records.
- Detect and document Problem Known Error (PKE) records.
- Conduct structured major problem review and root cause analysis sessions.
- Understand lessons learned and document remediation strategies to ensure no repeat occurrences.
- Work to establish and solidify an accurate CMDB (Configuration Management Database) so we can better understand the impact changes have on our systems.
- Establish monthly meetings with vendors/carriers to ensure all SLAs are being met.
- Document and escalate breached services by vendors/carriers and follow through on defined penalties.
- Maintain fastest possible turnaround for client service requests.
- Continuously improve service-delivery processes, and client satisfaction.

Following is a list of technologies in which the individual must be familiar with: Windows 7 and 10, VMWare, Citrix virtual applications and desktops (VDIs), Windows Server 2012 administration (including Active Directory, DNS, FTP, WSUS, and Group Policies), Salesforce, ServiceNow, IBM FileNet P8, Office365 (including Azure AD, InTune, Sharepoint, and Exchange Online), Mainframe technologies, VoIP, Telephony, and a number of 3rd party products.
